

## Covid-19 Protocol

*In light of the latest Government guidelines, Gravetye has chosen to stay alert and the following procedures will remain in place to protect not just the team here but also our guests. This will be reviewed weekly.*

### GUESTS:

If in the unfortunate event you test positive for COVID-19 we kindly ask that you reschedule your booking.

### STAFF:

Each team member will be asked to stay at home if they test positive for Covid-19. After a negative result on day 5 & 6 they will return to work.

### HOTEL:

Increased levels of cleaning and disinfecting around the hotel, throughout the day.

Windows open to allow air circulation as much as possible.

Hand Sanitisers available throughout the hotel.

All keys to be sanitised. Guest encouraged to keep their key with them during their stay.

We have plenty of room so our tables are well spaced out in the lounges and dining room.

Special attention to food safety by the F&B team.

Pre-settled checkout to avoid queuing at reception.

If you have any other concerns please contact us directly.
